PROFESSIONAL EXPERIENCE

Digital & AI Strategy Intern — Paris, France
Wabtec Corporation — *Feb. 2025 – Apr. 2025*
- Identified 15 high-impact business opportunities through structured data analysis, enabling faster strategic decision-making
- Built executive-ready reporting frameworks translating complex data into actionable insights for business planning
- Conducted end-to-end operational and cost analysis, recommending scalable improvements to optimize efficiency
- Collaborated with cross-functional teams to define and prioritize strategic initiatives and execution roadmaps

Logistics & Supply Chain Intern — Bengaluru, India
Sunshine Concrete Blocks — *Jun. 2023 – Apr. 2024*
- Analyzed operational KPIs across order fulfillment and inventory cycles, improving visibility into performance drivers
- Reduced excess inventory by 25% using data-driven forecasting and optimization insights
- Designed and implemented a centralized reporting system, improving real-time tracking and decision-making
- Enabled cross-team coordination through structured performance dashboards and reporting

Digital Consultant & Team Leader — Paris, France
180DC HEC Paris — *Feb. 2023 – Jun. 2023*
- Led a consulting team to assess business performance and identify strategic improvement opportunities
- Built Power BI dashboards tracking financial and operational KPIs for executive stakeholders
- Delivered data-driven strategic recommendations, supporting client decision-making and execution priorities

Project Engineer, Open-Source Program Office (OSPO) — Bengaluru, India
Wipro Ltd. — *Sep. 2020 – Jun. 2022*
- Designed, developed, and tested two web applications (PassForge, UMS), improving system efficiency
- Led a team of 3 software developers in an Agile environment to deliver 50+ automation scripts for AWS and Azure deployments, enhancing scalability and performance
- Built and optimized automation workflows to streamline cloud operations, improving speed and reliability
- Analyzed user feedback and patterns to refine product features, ensuring alignment with business goals

Digital Marketing Intern — Bengaluru, India
GetMyUni — *Jan. 2020 – Feb. 2020*
- Managed lead acquisition, segmentation, and nurturing workflows using Salesforce CRM across multi-channel campaigns (Push, Email, Google Ads, SMS)
- Optimized 75+ landing pages based on user behavior analysis, improving conversion rates by 15%
- Automated lead processing with Python scripts, reducing processing time by 40%

PROJECTS

- **Master's thesis:** Blockchain-backed NFTs as digital proof of authenticity – developed a solution to enhance product transparency and combat counterfeiting
- **Ongoing:** No-code Retrieval-Augmented Generation (RAG) application using AstraDB for large language models
- **Viz-Aid:** Developed a shopping aid mobile application (Java, COCO dataset) at PESIT Bengaluru, addressing user needs for seamless shopping experiences
- **Crime Rate Analysis:** Conducted predictive analysis of crime rates in India using K-means and K-NN algorithms
