Master in Management – Digital Innovation and Acceleration (GPA: 3.62/4) — *Sep. 2022 – Oct. 2025*
Ranked #1 Master in Management worldwide by the Financial Times

PES Institute of Technology, Bangalore South Campus — Bangalore, India
Bachelor of Engineering – Information Science and Engineering (GPA: 8.47/10) — *Aug. 2016 – Aug. 2020*

PROFESSIONAL EXPERIENCE

Digital & AI Strategy Intern — Paris, France
Wabtec Corporation — *Feb. 2025 – Apr. 2025*

- Identified and prioritized 20 high-impact opportunities, supporting value-based initiative prioritization aligned with business needs.
- Collaborated cross-functionally to define strategic roadmaps and translate business requirements into structured initiatives.
- Built executive reporting frameworks tracking KPIs and performance signals to improve decision-making and process visibility.
- Recommended scalable process improvements through operational analysis, supporting efficiency gains and continuous improvement.
- Supported stakeholder alignment across business and technical teams in shaping execution priorities.

Logistics & Supply Chain Intern — Bengaluru, India
Sunshine Concrete Blocks — *Jun. 2023 – Apr. 2024*

- Analyzed operational KPIs across order fulfillment and inventory cycles, improving visibility into performance drivers
- Reduced excess inventory by 25% using data-driven forecasting and optimization insights
- Designed and implemented a centralized reporting system, improving real-time tracking and decision-making
- Enabled cross-team coordination through structured performance dashboards and reporting

Digital Consultant & Team Leader — Paris, France
180DC HEC Paris — *Feb. 2023 – Jun. 2023*

- Led stakeholder discovery and business assessments to identify performance improvement opportunities.
- Facilitated requirements gathering and translated findings into structured strategic recommendations.
- Developed KPI dashboards supporting governance-oriented monitoring and executive decision-making.
- Drove team execution and stakeholder alignment across consulting workstreams.

Project Engineer, Open-Source Program Office (OSPO) — Bengaluru, India
Wipro Ltd. — *Sep. 2020 – Jun. 2022*

- Delivered 50+ automation solutions while managing Agile workflows and supporting product delivery priorities.
- Coordinated stakeholders across business and technical teams to align requirements and execution.
- Analyzed user requirements and supported solution development aligned with business needs.
- Contributed to lifecycle improvements and continuous optimization across cloud-related deployments.

Digital Marketing Intern — Bengaluru, India
GetMyUni — *Jan. 2020 – Feb. 2020*

- Managed lead acquisition, segmentation, and nurturing workflows using Salesforce CRM across multi-channel campaigns (Push, Email, Google Ads, SMS)
- Optimized 75+ landing pages based on user behavior analysis, improving conversion rates by 15%
- Automated lead processing with Python scripts, reducing processing time by 40%

PROJECTS

- **Master's thesis:** Blockchain-backed NFTs as digital proof of authenticity – developed a solution to enhance product transparency and combat counterfeiting
- **Ongoing:** No-code Retrieval-Augmented Generation (RAG) application using AstraDB for large language models
- **AI Agent System (Antigravity + Groq):** Developed a low-code workflow-driven AI agent enabling structured task execution and decision support using large language models
- **Custom GPT Suite:** Built 15+ specialized AI assistants for career optimization, product strategy, decision support, and financial analysis using structured prompt engineering and expert reasoning frameworks.
- **Viz-Aid:** Developed a shopping aid mobile application (Java, COCO dataset) at PESIT Bengaluru, addressing user needs for seamless shopping experiences
