EDUCATION

HEC Paris

Paris, France

Master in Management – Digital Innovation and Acceleration (GPA: 3.62/4)

Sep. 2022 – Oct. 2025

Ranked #1 Master in Management worldwide by the Financial Times

PES Institute of Technology, Bangalore South Campus

Bangalore, India

Bachelor of Engineering – Information Science and Engineering (GPA: 8.47/10)

Aug. 2016 – Aug. 2020

PROFESSIONAL EXPERIENCE

Wabtec Corporation

Paris, France

Digital & AI Strategy Intern

Feb. 2025 – Apr. 2025

- Identified and prioritized 20+ digital and AI-driven strategic initiatives, supporting transformation roadmap development
- Built structured analyses and decision-support materials for senior stakeholders, enabling prioritization of high-impact opportunities
- Translated complex business and technical inputs into clear strategic recommendations and execution plans
- Collaborated cross-functionally to align digital transformation initiatives across business and technical teams

Sunshine Concrete Blocks

Bengaluru, India

Logistics & Supply Chain Intern

Jun. 2023 – Apr. 2024

- Analyzed operational and inventory datasets using SQL and Advanced Excel to identify fulfillment inefficiencies and business performance drivers
- Reduced excess inventory by 25% through data-driven forecasting and optimization models
- Built KPI dashboards tracking operational and inventory performance metrics for business decision-making
- Enabled cross-functional alignment via structured KPI tracking and reporting frameworks

180DC HEC Paris

Paris, France

Digital Consultant & Team Leader

Feb. 2023 – Jun. 2023

- Led consulting workstream, structuring ambiguous business problems into clear frameworks and actionable recommendations
- Synthesized qualitative and quantitative insights into executive-ready deliverables (presentations, dashboards)
- Developed KPI frameworks enabling performance tracking and strategic decision-making
- Coordinated team execution while ensuring clarity, rigor, and high-quality outputs

Wipro Ltd.

Bengaluru, India

Project Engineer, Open-Source Program Office (OSPO)

Sep. 2020 – Jun. 2022

- Delivered 50+ automation solutions, improving operational efficiency across cloud and enterprise workflows
- Coordinated cross-functional stakeholders to align business requirements with technical execution
- Supported Agile project execution, including sprint planning and delivery tracking
- Contributed to continuous improvement initiatives across product lifecycle and deployment processes

GetMyUni

Bengaluru, India

Digital Marketing Intern

Jan. 2020 – Feb. 2020

- Managed lead acquisition, segmentation, and nurturing workflows using Salesforce CRM across multi-channel campaigns (Push, Email, Google Ads, SMS)
- Optimized 75+ landing pages based on user behavior analysis, improving conversion rates by 15%
- Automated lead processing with Python scripts, reducing processing time by 40%

PROJECTS

- Master's thesis:** Blockchain-backed NFTs as digital proof of authenticity – developed a solution to enhance product transparency and combat counterfeiting
- Ongoing:** No-code Retrieval-Augmented Generation (RAG) application using AstraDB for large language models
- StrategyJEDI:** Led the development of a full-stack AI-powered strategic consulting platform using Antigravity (low-code) and Groq to generate multi-framework business analyses across 15+ consulting frameworks
- hiringJEDI:** Led the development of a full-stack LLM-based solution using Antigravity (low-code) and Groq to optimize resumes and cover letters for job descriptions, enabling automated match scoring and AI-driven content generation
- Custom GPT Suite:** Built 15+ specialized AI assistants for career optimization, product strategy, decision support, and financial analysis using structured prompt engineering and expert reasoning frameworks.
- Viz-Aid:** Developed a shopping aid mobile application (Java, COCO dataset) at PESIT Bengaluru, addressing user needs for seamless shopping experiences
