PROFILE

Master in Management graduate from HEC Paris with experience in strategy, business analysis, digital transformation, and AI-driven business solutions across technology and industrial sectors. Strong analytical skills with expertise in SQL, Python, Power BI, Tableau, and advanced Excel to translate complex data into actionable business insights. Proven ability to collaborate with cross-functional teams, optimize business processes, develop executive-ready recommendations, and drive data-informed decision-making in fast-paced global environments.

PROFESSIONAL EXPERIENCE

Wabtec Corporation

Paris, France

Digital & AI Strategy Intern

Feb. 2025 – Apr. 2025

- Analyzed digital product and business performance to identify and prioritize 20+ digital and AI transformation initiatives, supporting enterprise transformation strategy.
- Developed executive-ready analytical reports and decision-support materials that enabled senior leadership to prioritize high-impact initiatives.
- Collaborated with business, product, and technical stakeholders to align digital transformation initiatives and support data-driven decision making.

Sunshine Concrete Blocks

Bengaluru, India

Logistics & Supply Chain Intern

Jun. 2023 – Apr. 2024

- Analyzed operational and inventory datasets using SQL and Excel to identify fulfillment inefficiencies and business improvement opportunities.
- Reduced excess inventory by 25% through data-driven forecasting models and inventory optimization initiatives.
- Developed KPI dashboards and automated reporting frameworks to improve operational visibility and enable cross-functional decision-making.

180DC HEC Paris

Paris, France

Digital Consultant & Team Leader

Feb. 2023 – Jun. 2023

- Led consulting workstream, structuring ambiguous business problems into clear frameworks and actionable recommendations.
- Conducted qualitative and quantitative analysis to synthesize findings into executive-ready presentations and decision-support materials.
- Delivered strategic recommendations aligned with client objectives and communicated key insights.

Wipro Ltd.

Bengaluru, India

Project Engineer, Open-Source Program Office (OSPO)

Sep. 2020 – Jun. 2022

- Delivered 50+ enterprise automation solutions, improving operational efficiency across cloud and engineering workflows.
- Coordinated cross-functional stakeholders to translate business requirements into scalable technical solutions.
- Supported Agile software delivery through sprint planning, backlog prioritization, release tracking, and continuous improvement initiatives.
- Contributed to software product lifecycle activities including planning, prioritization, delivery monitoring, and stakeholder communication.

GetMyUni

Bengaluru, India

Digital Marketing Intern

Jan. 2020 – Feb. 2020

- Managed customer segmentation, lead nurturing, and multi-channel acquisition campaigns using Salesforce CRM across Email, Push, Google Ads, and SMS channels.
- Analyzed user behavior and landing page performance to optimize conversion funnels, conducting A/B testing that contributed to a 15% increase in click-through rates (CTR).
- Optimized more than 75 landing pages using customer behavior insights and campaign performance analysis to improve user engagement and conversions.
- Automated lead-processing workflows using Python, reducing processing time by 40% while improving data quality and operational efficiency.
